- IPCS Global - 1 - week - Web development Course
- LiTZTech— 7-day training on Web development (July 2024)
- STACK QUEUE - 14 days Training on Frontend Technologies
- InTernPe - One Month Training on JAVA

PROJECT

• Women Safety & POSH Platform

Developed a digital solution designed to foster secure, inclusive environments by streamlining POSH compliance and women safety protocols. The platform features an anonymous grievance reporting system and real-time emergency alerts for legal documentation to ensure organizational transparency.

• Ticket Booking Site

Worked on developing a Ticket Booking website with responsive and user-friendly interfaces. Contributed as an HTML and CSS developer, focusing on layout design, styling, and cross-browser compatibility.

• Smart – real time bus monitoring system (on going)

Developing an IoT-driven tracking system to provide real-time GPS location and accurate arrival predictions for public transit. Currently building the backend infrastructure and mobile interface to enable live data streaming between vehicles and commuters.
